MEMORANDUM FOR: Chief Records Management Staff

SUBJECT: Procurement of Safe Filing Equipment for Overseas Use

REFERENCE: Memorandum for Chief, RI, dated 16 April 1958, Subject: Procurement of Safe Filing Equipment for Overseas Use

According to Area Division Records Administration Officers there are no known factors, at this time, that will materially change the CS requirements for safes overseas within the next nine months or for the calendar year 1959. Therefore it seems reasonable to assume the DDP needs in the period under consideration will be about the same as they have been in the immediate past.
